

Easyhome Waterproof Specification and Certificate							
No	Item	Material specifications	Roll Size	Color	Apply to	Picture	Application
1	Waterproof Sheet	Polymer TPO film layer Blue polyethylene waterproof layer Chemical fiber nonwoven layer Imported pressure sensitive adhesive layer Isolation film(3years warranty)	1*15m	Blue/Grey	Sloped Roof with Sandwich panel, GI sheet, metal material roof, etc		 
2	Waterproof Sheet	Polymer TPO film layer Metallic Aluminum Foil Layer Chemical fiber nonwoven layer Imported pressure sensitive adhesive layer Isolation film(3years warranty)	1*15m	Silver	Sloped Roof with Sandwich panel, GI sheet, metal material roof, etc		 
3	Waterproof Sheet	Blue Butyl Rubber Waterproof Sheet (5years warranty)	1*10m	Blue	All sloped roof materials		 
4	Waterproof Sheet	Self-adhesive polymer modified bitumen waterproof membrane *Heat resistant (3years warranty)	1*10m	Sliver /Blue /Grey	All sloped roof materials		Test report 

*Contains heat-resistant polyperylene, Resistant to high temperatures upto 90 C°

* Can be used with different roof surfaces

* Resistant to climate changes
